

Yemen Report

IMAM HASSAN CENTRE, AL ASR ORGANISATION AND 14 SPONSORS

YEMEN - BACKGROUND

Over the last few years, the people of Yemen have suffered a brutal war waged from the air that has killed many civilians. Families have been forced to leave their homes - and lives - behind as they flee to Yemen's capital Sana'a.

The violence has annihilated Yemen's most basic of infrastructure, prompting deadly disease outbreaks and squeezing the country's food supplies to the brink of starvation. Food prices have doubled in the last month. Of the 22 million people affected, 15 million are battling food hardship and around 10 million do not know where they will obtain their next meal from.

More than 5 million children are facing starvation right now in what could be the worst famine in 100 years.

Much more needs to be done in Yemen...

OUR WORK IN YEMEN

We have been working urgently with our partners on the ground since May 2018 to provide food packs and medical aid to vulnerable families and those that are internally displaced.

EMERGENCY FOOD

We have distributed over 17,500 food baskets in Sana'a and Hodeidah, reaching at least 87,000 individuals. Our focus of support is the elderly, widows and orphans primarily, as well as heads of family who are out of work.

Furthermore, through local sourcing of products we believe our aid is also providing crucial financial support to local wholesalers whose businesses are suffering severely.

Furthermore, through local sourcing of products we believe our aid is also providing crucial financial support to local wholesalers whose businesses are suffering severely.

MEDICAL AID

Hodeidah too has been severely impacted by the ongoing war. Our assessments on the ground show that so many are gravely lacking access to basic healthcare for potentially life-threatening illnesses such as kidney treatment.

In July 2018, we provided critical dialysis treatment to 170 adults who had not been able to access medical support due to the ongoing bombings.

Many health centres had closed down or been destroyed which meant patients had to travel far or on dangerous routes for treatment. For many, it is simply too expensive to pay for in the current climate of poverty, danger and displacement.

WHERE DID YOUR MONEY GO?

Thank you for the benevolent contribution that you have made totaling \$370,000 AUD, equivalent to approx \$250,473 USD / €227,268.

Your generosity has enabled us to assist the urgent needs of desperate people.

Due to the difficult circumstances in Yemen, we are required to remit in multiple tranches. In addition to the last combined report, we have managed to successful send €80,000 Euros (approx \$130,222 AUD / \$88,180 USD).

Thus far, your generous donations have managed to benefit over 10,000 individuals with over 2,000 food packs distributed. Please see overleaf for the distribution schedules and details of purchase receipt from the first distribution - from Ahmed Qayed Al Oudi Stores based in Hodaidah.

These families have been facing food insecurity & unemployment as a result of internal displacement and are now settled in hard to reach areas across Sana'a.

Items included in each food basket:

- | | |
|------------------|---------------|
| - Ground wheat | - White Flour |
| - Lentils | - Sugar |
| - Cooking oil | - Rice |
| - Milk/baby milk | - Dates |
